

TECH RESOURCE GUIDE

KID Museum is the region's pioneering experiential museum and educational makerspace; fostering the mind of a maker in kids and youth and empowering the next generation with the skills to invent the future. Learning and exploring doesn't just stop at the doors of the KID Museum - it continues into the homes of every student who attends our programming.

Fostering that curiosity from home requires access to both affordable, high speed internet and a modern home computer. At KID Museum, we would like to share with you information about programs that can help make both affordable.

Interested in Free or Discounted Internet?

Eligible households may qualify for free or discounted internet from a monthly federal benefit called the Affordable Connectivity Program (ACP). Maryland residents could qualify for up to \$45 per month that can be applied to the cost of your home internet.

For more information, please go to: getinternet.gov. You may also call 1-866-206-8467 for a live representative who will help you to successfully enroll.

Interested in a Free Chromebook Computer?

Montgomery County government is distributing free laptop Chromebook computers to eligible Maryland households. To learn more information and sign up to receive a free computer, please go to: <https://www.montgomerycountymd.gov/obp/computer-for-you.html>

Do you have tech questions?

Do you have questions about how to set up Google docs, obtain internet security software and more? The University of Maryland Extension has set up a free Tech Hotline to help answer all of your computer questions. English and Spanish tech support is available.

Call 1-866-206-8467
Monday-Friday, 10 AM - 8 PM
Saturday, 10 AM - 5 PM
