

INVENT THE FUTURE EXPO

Sponsorship Opportunities

Join us on June 2, 2024 as KID Museum hosts a community-wide **Expo** highlighting the power of creativity and invention – showcasing some of the most thoughtful inventions by students and companies from across the region.

Invent the Future Expo elevates the importance of innovation across all sectors, with companies showcasing interactive displays and inspirational talks by industry leaders throughout the day. By celebrating creativity, fostering connections, and inspiring lifelong learning, the expo embodies a vision of innovation that is *inclusive, empowering, and transformative*.

KID Museum is inviting you to showcase your innovations on June 2nd. Join us for an opportunity to showcase your company’s cutting-edge innovations in a fun, interactive way for attendees. You will present side-by-side with students through demonstrations, lightning talks, and interactive explorations.

The expo will be free and open to the public. We are anticipating about 3,000 people to attend, including kids, families, educators, elected officials, and industry leaders.

Sponsorship package options include:

- Opening remarks at event
- Private event held at KID Museum for employees and family
- Present Student Award
- KID Museum membership:
 - 10 employees for Gold Sponsor
 - 25 employees for Platinum Sponsor
- Showcase Innovation/Exhibit
 - 2X space for Platinum Sponsor
- Judge Student Submissions
- Signage

	Platinum \$50,000	Gold \$25,000	Silver \$10,000

I feel like every student should have this opportunity. We didn't expect it to have such a huge impact on our lives!

– Participating Student

Your support makes an impact where it matters

Develop the Future Workforce

There is an urgency to develop strong talent pipelines for a fast changing economy. KID Museum programs help students in under-resourced schools and communities gain real world experience and increase interest in STEM careers.

Engage Your Employees to Make a Difference

We offer unique volunteer opportunities that any employee can participate in.

Support Deep STEM Learning at a Critical Time

Our programs inject fun and creativity into STEM-focused elements and engage students in ways where they don't realize they are working out a math problem or learning engineering design.

Address Diversity, Equity, and Inclusion Gaps

To build a more inclusive future workforce, our programs prioritize populations traditionally underrepresented in STEM fields. Last year, 70% of school program participants were Black or Latinx.

You will be in good company supporting KID Museum. Be a part of our growing community of corporate sponsors:

Contact Nakia Harper at nakia@kid-museum.org on how you can showcase your **Invent the Future** spirit on June 2nd.
