

KID Museum Summer Camp Operations Support

About KID Museum

KID Museum is the nation's largest educational makerspace for youth. Our mission is to revolutionize how kids learn through the maker experience. Through hands-on programming and deep learning experiences, we empower youth with the creative problem-solving and STEM skills to invent the future. With a focus on engaging populations traditionally underrepresented in STEM, our programs aim to build economic opportunity and diversify the future talent pipeline.

Our vision is to become the standard of excellence for inclusive, impactful maker learning nationally, and a model for how to expand access to maker learning at scale. Our headquarters in the Washington, DC region serves as our innovation hub. In partnership with local school systems, government and philanthropic leaders, we design and deliver K-12 programs that produce results at scale in a large and diverse metropolitan region. We leverage the learnings from this learning lab to create resources, training, and technical support to expand high-impact maker learning nationally.
